High Street's Backside Bridlington Old Town 10 & 11 September

Oxford English Dictionary: Backside: Premises belonging to a house ... situated behind the main building, including gardens ...

This year, on the first weekend of the National Festival, by kind permission of their owners, several private gardens are open. A self-guided walk will take in the gardens, open so that visitors can not only enjoy the beautiful gardens and yards but also appreciate the historical aspect of the High Street's 'backside'.
